This NOTICE OF INTENT TO SUE further addresses conduct arising from repeated claims made by Ramon Ontiveros between approximately June and August 2024 alleging that I possessed lawful immigration status, including a "green card" and a Social Security number based on a picture I created and saved only on my personal phone that included a California Driver License as part of lawful controlled observations designed to identify the origin and pathways of such attempts, including the use of staged materials and scenarios that were deliberately fabricated and non-functional, and which did not constitute illegal conduct, since these methods were used solely to document patterns of coercion, impersonation, misrepresentation, attempted inducement, and unauthorized access to personal devices such as both personal mobile cellphone and computer (please read: "Supporting Notice Regarding Documentation Methods and Controlled Observations"), which his own efforts were undertaken to obtain or confirm such information through coercive, deceptive, and fraudulent means, engaging in or directing third parties to attempt to extract personal or identifying information under false pretenses, requesting the isolated involvement of third parties, including **Jose Valdez**, under the guise of requesting a flooring quote for work purportedly to be performed in Mexicali, Baja California, Mexico, and also repeated claims made by Ramon Ontiveros between approximately the same general time, that I would voluntarily advance and disclose information that could be mischaracterized as "evasion" or "fraud," Ramon Ontiveros requested the isolated involvement of **Oscar Villalobos** of LL Flooring (formerly Lumber Liquidators), located at 1111 Barranca Dr., El Paso, Texas 79935, with the same apparent intent of extracting information to support false or pretextual allegations.

In addition, this NOTICE OF INTENT TO SUE includes post-employment retaliatory conduct occurring during, but not limited to September-October 2024, January-March 2025, June-August 2025, and September 2025 to the present, consisting of a coordinated and continuing campaign of retaliation, intimidation, harassment, extortion and interstate extortion, and interference through misrepresentation and impersonation, forgery, false claims, censorship and suppression of survivor testimony and protected speech, tampering and fabrication of evidence, and obstructing access to justice, including, but not limited to:

- Intimidation through immigrant-status-based threats, abuse of legal process, covert and explicit death threats conditioned on contacting law enforcement, covert and explicit threats invoking the participation of organized criminal actors, and threats of litigation based on false allegations regarding a personal backup file I independently generated from personal annotations,

- Extortion and interstate extortion through threats of harm to family members, friends, acquaintances, or others who have assisted me,
- The use of fraudulent contracts and payments through fraudulent contact, interstate cyberharassment and stalking, impersonation and misrepresentation of third parties, including the issuance of fraudulent and forged checks under false pretenses, the creation and operation of additional websites, pages, domain names, and the application of script redirecting to such third parties' websites to covert intent, and the deliberate targeting and misappropriation of my creative work, all undertaken to deceive, extract value, obstruct lawful commerce, and interfere with my creative activity, and forming part of a coordinated and ongoing pattern of retaliation, harassment, and economic interference intended to cause financial harm, confusion, and deprivation.
- The use of fraudulent and fake accounts on Social Media and through unknown phone numbers (VoIP) by contacting me to request and schedule fraudulent appointments for estimates, contacting members of my family who are located out of state under fabricated business claims, and engaging in controlled and deceptive interactions designed to test, provoke, or manufacture false associations.
- Attempts to mischaracterize, frame and execute a documented campaign of retaliation, harassment, defamation, and related conduct through intentional and controlled experiments (please read: "Supporting Notice Regarding Documentation Methods and Controlled Observations"), as "imagery rescripting therapy" or "worldview therapy," whether referenced through misattributed credits on open-source platforms such as IMDb and others, or disseminated through fake or anonymous profiles across social media, professional networks, and location-based applications, all which will be taken into consideration as an attempt to tamper with evidence and tampering with the testimony of a witness, including misrepresentation of self and impersonation of medical and therapeutic professionals by falsely claiming authority to perform therapeutic interventions, violations of healthcare and privacy standards, unauthorized disclosure of personal, private, and medical information, including the dissemination of personal images, generation or use of AI-manipulated or deepfake sexualized content derived from my likeness such as deliberately editing the "line" tattoo I have on my left arm, and the non-consensual simulation or imposition of purported medical or therapeutic interventions, all as separated acts, which will be prosecuted to the fullest extent of the law,
- Further intimidation through the widespread, bad-faith misattribution of songwriting, acting, producing, or authorship credits across open-source and professional platforms, such as IMDb, Social Media, and other related, including the creation of a Facebook account under the name of "Ramon Medina" intended to fabricate conversations and manipulate the titles of these conversations to mischaracterize a conversation between an already added contact as friend as a lawful request through a listing for Floor Ko LLC's advertisement on Facebook Marketplace, to create covert family members associations to law-enforcement, criminal organizations or the amplification of false narratives that match previous claims made by Ramon Ontiveros during my employment designed to provoke, intimidate, or generate reputational harm through repetition and forced association, including conduct intended to induce unsolicited or illicit communications as a means of harassment and psychological pressure,
- Attempts to conceal, dilute, or obstruct accountability by deliberately fragmenting and saturating Ramon Ontiveros' digital identity space through the release of multiple AI-generated works such as songs titled "Ramon Ontiveros," the manufacture of numerous false or automated profiles, and the creation of deceptive academic, professional, or websites under the names of the primary defendant and associates, including the use of misleading imagery, false credentials, redirecting pages, or technical obfuscation designed to prevent scrutiny, confuse attribution, or normalize deceptive behavior under the guise of legitimate activity,
- Attempts to use, dilute, sabotage, split, or weaponize my identity and the identities of persons associated with me, including family members (living or deceased), close friends (living or deceased), acquaintances, former professors or colleagues, and individuals who have provided assistance, as well as names I have deliberately referenced such as "Ceasar," "Adrian," and

others, as part of controlled observations (please read: “Supporting Notice Regarding Documentation Methods and Controlled Observations”) to test replication and mirroring behavior across social media, professional platforms, creative distribution and attribution systems, indexing and archival services, and dating or location-based applications, whether through identifiable or anonymous accounts, and constitutes coordinated identity sabotage and retaliatory interference,

- Deprivation of basic needs occurred as a foreseeable and intended consequence of an ongoing and documented pattern of retaliation, harassment, deliberate censorship under false claims, interference with my professional work through the prevention of access to work opportunities, lead generation, independent contracting, creative distribution, and lawful commerce, including the scheduling of fake appointments for estimates intended to cause loss of resources such as time, fuel, and income, and the repeated reporting of advertisements, resulting in repeated takedowns, suspensions, and bans of my work accounts, as well as the prevention of creating new accounts through generalized bans tied to my identifiers, IP addresses, and related technical markers, which has prevent me from finding lawful employment and income, which has resurrected forced deprivation, starvation conditions, and the prolonged disconnection of essential utilities, including electricity, for periods exceeding one month, including during extreme weather conditions, conduct that is not isolated but forms part of a continuing and documented pattern of coercive outcomes that mirrors and reproduces the same results and harms I was subjected to during my employment by Ramon Ontiveros, when he engaged in wage withholding, sustained wage withholding, retaliation, harassment, and interference, demonstrating continuity of method, effect, and intent across time and contexts,
- Coercive pressure continues to be exerted through the fraudulent association and manipulation of metadata and related acts that may constitute misattribution of authorship and credits and copyright infringement, undertaken to compel me to abandon legal remedies and to “forgive” the primary defendant outside any lawful process, including the misuse of religious language, moral authority, and implied spiritual consequences, communicated both directly and indirectly, and designed to intimidate, destabilize, or discourage the pursuit of protected legal activity, acts that have been carried out through the abuse of metadata and attribution systems across digital distribution and streaming services used to release and disseminate my creative work, including but not limited to audio recordings, lyrics, written content, podcasts, and other related materials, by the unauthorized association of my name, identifiers, or creative output with false, misleading, or coercive narratives, the alteration, suppression, or misattribution of credits, and the creation of fraudulent associations intended to exert psychological, reputational, and economic pressure, conduct that constitutes interference with civil rights, retaliation, and improper influence, regardless of the platform, medium, automation, intermediary, or claimed belief system used, and regardless of any assertion of good faith, moderation, reporting, or lawful activity, with each instance preserved as a separate and ongoing actionable violation, subject to civil liability, and to referral for investigation upon the request, granting, and confirmation of subpoenas for relevant internet, platform, and network records,
- Coordinated reporting of my personal, creative, professional, and survivor testimony through multiple accounts with the intent to censor and suppress protected speech, whether these are managed by Ramon Ontiveros himself, or represents the participation of third parties, which would constitute in a conspiracy to commit offenses against the United States, including the false labeling of images documenting starvation, deprivation, or physical deterioration as “pornographic” or “sexual content” despite the absence of any sexual context or intent; the characterization of survivor testimony describing exploitation or trafficking as “obscene” or “sexually explicit” where such descriptions are necessary to explain harm; the framing of advocacy or personal disclosures as “solicitation” or “prostitution” despite the absence of any offer, request, or commercial element; and the use of anonymous, automated, or fraudulent accounts to submit coordinated reports, indicating an intent to overwhelm or manipulate moderation systems rather than to enforce legitimate community standards.

- Coordinated use of covert, fraudulent, fake, and anonymous accounts, pages, and profiles across social media and related platforms, including dating, hookup, and location-based applications or services such as Grindr, Sniffies, and similar platforms, whether accessed through identifiable or anonymous means, to impersonate minors and to circulate or reference explicit material framed or represented in a manner that could be construed as possession and distribution of child pornography (child sexual abuse content), with the apparent intent to entrap, fabricate allegations, and falsely attribute such conduct to me, and the further coordinated and escalating retaliatory conduct through the continued use of current, dormant, newly created, or successor accounts across the same platforms to deliberately fabricate and stage purported “evidence,” after first coordinated efforts failed, as well as the issuance of new associated threats to abuse legal process and the submission, or threatened submission, of knowingly false reports to local, state, and federal authorities under false pretenses associated to allegations regarding unlawful conduct with minors, all undertaken to perpetuate defamation, assassinate my character, and preemptively impeach my credibility before I have the opportunity to testify under oath, particularly after I raised concerns regarding forced labor, labor exploitation, wage withholding, wage theft, deprivation of basic necessities, including forced starvation, homelessness, and harm, intimidation, including immigration-status threats, abuse of legal process, and others, sex trafficking, retaliation, harassment, and other related unlawful acts, and pursued lawful avenues toward legal action.

These post-employment actions are not separate or unrelated events. They constitute a continuing course of conduct inherent to human trafficking, labor exploitation, and sex trafficking, and others, in which coercion, control, and retaliation extend beyond the period of direct employment. The acts described are directly connected to my prior labor exploitation, my role as a witness and survivor of trafficking-related offenses, and my efforts to report, document, and obtain protection under applicable law.

ALLEGATIONS AND PATTERN OF CONDUCT

During the periods identified above, I was subjected to a systematic, coordinated pattern of unlawful conduct, including but not limited to acts that constitute coercion, exploitation, deprivation of basic needs resulting in forced starvation for periods corresponding to 24 consecutive days of starvation, and other intermittent periods up to four (4) continuous days during multiple times during my employment at Floor Ko, LLC, and multiple times after through interference as a post-employment retaliatory campaign, homelessness through forced relocation, harm, and others, retaliation, harassment, intimidation, and interference with protected rights under applicable federal and state statutes through fraud, misrepresentation, impersonation, and other related.

It reflects a deliberate abuse of economic vulnerability, power imbalance, and immigration-related fear taken advantage of by Ramon Ontiveros, and other associated acts carried out in coordination with, by influence, or at the direction of Alex Armengol and Mexican national Dacia Ontiveros Medina, and the isolated collaboration of others under false pretenses, to the extent relevant to the conduct described herein, and meets the legal thresholds for forced labor, labor trafficking-related coercion, retaliation, obstruction, and sex trafficking, based on the occurrence of my exploitation through coercion, financial harm, fraud, abuse of my vulnerability, and deprivation of basic needs, as defined under applicable law.

- Any indexed or published content referencing my identity, work, or the claims described in this matter.

F. Media and Content

- Any graphic, audio, or video content uploaded, shared, distributed, or circulated by you, including content you created, edited, altered, reposted, or caused to be published;
- Original files, drafts, edited versions, metadata, and upload histories associated with such content.

This preservation duty expressly extends to all digital identifiers and technical infrastructure, including but not limited to:

- Account credentials, login histories, authentication logs, and device associations;

- Network identifiers, IP address logs, router and modem records, MAC addresses, encryption settings, and service-provider records;
- Mobile phones, SIM cards, phone records, service contracts, call detail records, messaging data, and usage logs associated with any number under your control or direction, including Jr. Alexander Mejía's last known phone number;
- Computers, tablets, external drives, cloud storage, backups, and any other electronic devices used to access accounts or store data.

Ramon Ontiveros, you are strictly prohibited from deleting, altering, overwriting, anonymizing, encrypting, fabricating, concealing, or otherwise modifying any evidence subject to this preservation NOTICE OF INTENT TO SUE. This prohibition applies to both active and inactive data, including data you believe to be irrelevant, redundant, or unfavorable. Failure to preserve evidence after receipt of this NOTICE OF INTENT TO SUE may constitute spoliation of evidence and may result in adverse inferences, sanctions, or other remedies available under applicable law.

Independent Evidence Preservation and Reservation of Rights

Ramon Ontiveros, you are hereby notified that I have taken independent and affirmative steps to preserve evidence relevant to this matter. This includes the creation and secure retention of backup files in May 2024, which I disclosed to you in August 2024, at the time you terminated my employment. These materials consist of my personal records, annotations, and contemporaneous notes, which I created and maintained as reference tools in order to perform my work. These records were not requested by Ramon Ontiveros, not created at Ramon Ontiveros' direction, and not generated as part of my assigned job duties.

To the extent that any portion of these materials was voluntarily shared with you and with Dacia Ontiveros Medina, such sharing was uncompensated, limited to work-related reference purposes only, and did not transfer ownership, authorship, custody, or control of the underlying records.

In addition, I maintain an independent backup of my text message communications covering the period from December 2021 through August 2024. These communications corroborate the substance, authorship, and timing of the notes and annotations I generated. These records were created by me in the ordinary course of events, contain original timestamps and metadata, and independently verify the accuracy, provenance, and integrity of my records. Both the written annotations and preserved communications have been used in the preparation of formal reports and disclosures, including submissions to the Internal Revenue Service (IRS) and the Texas Comptroller of Public Accounts.

I expressly reserve the right to rely upon and introduce these materials in any legal, administrative, or judicial proceeding arising from this matter, including but not limited to claims or defenses relating to forced labor and labor exploitation, wage theft, promissory estoppel, misrepresentation, tax-related misconduct, fraud, and intimidation, including efforts to coerce or pressure me to "return" or relinquish my independently created backup.

Any such demand is particularly inconsistent given that you retained the main file I personally save on an email I created and shared with both you and Dacia Ontiveros Medina, absent evidence that this version has been corrupted, altered, or deliberately manipulated, which was the reason this independent backup was generated and securely preserved in the first place. This backup was created in response to observed alteration, deletion, and manipulation of my original notes and records during my employment. It was finalized and securely preserved in or about May 2024.

Because these materials contain confidential information relating to third parties, disclosure was handled cautiously and solely to prevent mischaracterization or false allegations, including accusations of financial misconduct such as money laundering, fraud, embezzlement, or related offenses. At the time my employment was terminated, I expressly retained possession and control of this backup, with the stated intent to use it as I deemed appropriate, and you affirmatively acknowledged that this retention was acceptable.

Other preserved materials include, but are not limited to screenshots, communications, payment and financial records, contemporaneous notes, hash-verified files, links, audio and video recordings, witness statements, identifiers associated with certain account credentials, and related documentation, and others.

Response and Deliberately Escalation for Evidence Preservation

In response to your continued threats of litigation based on false allegations concerning this backup file that I independently created from my own contemporaneous personal annotations, I elected to disclose the existence of that file to former clients whom I redirected to Floor Ko, LLC through a public disclosure campaign addressing all former clients of Floor Ko, LLC, of El Paso, Texas, titled **"YOU HAVE BEEN DEFRAUDED"** which was undertaken for transparency, evidence preservation, and harm mitigation (please read "Supplement Notice Regarding Public Disclosure"), and included notice of reports made to taxing authorities regarding suspected tax irregularities, deceptive trade practices such as charging for services advertised as "free," and additional overcharges based on perceived client wealth, while offering in good-faith access to copies of their own records upon verification of identity, without alteration or misrepresentation, and in order to prevent further misuse of the file, counter false narratives, and preserve evidence relevant to ongoing and anticipated legal proceedings, you were also notified, and all communications have been and will be sent to you to demonstrate this isn't a covert campaign of retaliatory defamation, but under the premise that truth is absolute defense for any defamation claims (please read "Supplement Notice Regarding Public Disclosure").

Spoliation and Interference Warning

Any deletion, alteration, concealment, privatization, migration, destruction, or manipulation of evidence, whether direct or indirect, will be treated as intentional spoliation and obstruction. This includes, without limitation, any discrepancy, inconsistency, or divergence arising between the date my independent backup was generated, and the present state of any related evidence, whether in content, metadata, timestamps, access histories, file structure, versioning, communications, financial records, or associated materials.

This prohibition applies to all forms of evidence, including but not limited to files within files, metadata, access and authentication logs, public or private links, hosting services, backups and cloud storage, physical devices, network configurations, routing behavior, and service-provider records. Any such discrepancy or alteration will be presumed to result from deliberate interference undertaken with knowledge of pending legal action, and will be documented as evidence of spoliation, obstruction, and bad faith, giving rise to independent civil and criminal exposure, adverse evidentiary inferences, sanctions, and other legal consequences.

3. Written Acknowledgment and Response

Ramon Ontiveros, you are required to provide a written response acknowledging receipt of this NOTICE OF INTENT TO SUE and stating your position within

thirty (30) days of receipt. Failure to respond does not toll, extend, suspend, or otherwise affect this deadline. Silence or non-response shall not be construed as compliance.

Any request for disclosure of allegations, evidence, or supporting materials, must be made in redacted form through duly licensed and verified legal counsel acting on Ramon Ontiveros' behalf that includes the amount of lawyers (plural), not one.

I reserve up to five (5) business days, or longer if reasonably necessary, to verify and confirm the legitimacy, authority, and scope of representation of any attorney claiming to act for you, or on your behalf, before providing any further disclosures, and I further reserve the right to extend this verification period where verification, safety, preservation of evidence, or other legitimate concerns require additional time.

Any attempt to invoke or threaten legal action, demand disclosures, or interfere with my lawful reporting without counsel formally appearing and making a verified request will be documented as additional evidence of bad-faith intimidation, abuse of legal process, and retaliatory conduct.

INTEND

I am no longer seeking to resolve this matter with Ramon Ontiveros informally. I do not wish to talk to Ramon Ontiveros if law enforcement isn't present or through Ramon Ontiveros' legal counsel. Prior offers or proposals of payment, assistance, or other consideration, whether previously made or repeated, will not alter my position and are hereby declined, and all will be used as separate acts of tampering with my testimony, and will be prosecuted to the fullest extent of the law.

This NOTICE OF INTENT TO SUE is provided to inform Ramon Ontiveros that I intend to proceed with formal legal action, and that litigation will be initiated absent timely and proper engagement through verified legal counsel. This communication is not an invitation to negotiate, compromise, or revisit prior discussions.

No monetary offer, inducement, or proposal of consideration will alter my intent to proceed with formal legal action. I have previously provided multiple opportunities to address these matters without litigation. This NOTICE OF INTENT TO SUE does not constitute another such opportunity. Rather, it serves to place Ramon Ontiveros on final notice of my intent to proceed and to comply with pre-suit requirements.

By issuing this NOTICE OF INTENT TO SUE, I am providing a second and final opportunity for Ramon Ontiveros to disclose the identity and contact information of his legal counsel for purposes of formal communication and disclosure. If, within thirty (30) days of receipt of this NOTICE OF INTENT TO SUE, Ramon Ontiveros fails to identify counsel or have counsel formally appear, I will treat each prior threat to initiate legal action as separate and cumulative instances of abuse of legal process, to the extent permitted by law.

Cumulative Acts of Abuse of Legal Process and Misrepresentation

Ramon Ontiveros is further advised that this constitutes a second attempt to extract his lawyers' contact information, and that a second failure to provide such information by having a duly authorized legal counsel formally appear and request disclosure of allegations within the time provided will be

treated as additional documentary evidence that Ramon Ontivero's prior threats to initiate legal action were made in bad faith and constitute abuse of legal process.

Any assertion that disclosure cannot occur because I must first have court-appointed counsel, or that legal action cannot proceed absent such appointment, will likewise be treated as independent evidence that Ramon Ontiveros prior threats to sue were not made with a genuine intent to pursue lawful litigation, but rather as a means of intimidation, delay, or interference.

Each continued invocation of legal threats without corresponding action by verified legal counsel, including any further excuses, preconditions, or justifications offered to avoid formal disclosure through counsel, will be documented as separate and cumulative instances of abuse of process and misrepresentation.

I expressly state this position because Ramon Ontiveros has repeatedly threatened to initiate legal action while failing to have counsel formally appear, identify claims, or request disclosure in a procedurally appropriate manner. Such conduct is inconsistent with a bona fide intent to litigate and is indicative of misrepresentation of legal intent and misuse of legal threats for coercive or obstructive purposes.

Each such instance will be treated as a separate and discrete act and preserved as evidence of a continuing pattern of bad-faith legal intimidation and misuse of legal process, arising in connection with and in furtherance of the human trafficking, forced labor, labor exploitation, and related claims previously identified.

RESERVATIONS OF RIGHTS AND PRESERVATION OF CLAIMS

This directive constitutes formal notice preserving all civil, statutory, constitutional, and equitable claims arising from serious and ongoing misconduct, including, but not limited to, human trafficking, labor exploitation, coercion, retaliation, impersonation, evidence tampering, and interference with protected speech, professional activity, and access to justice. This NOTICE OF INTENT TO SUE is intended to place all recipients on actual and constructive notice of the scope of potential liability arising from the conduct described herein.

I expressly reserve the right to add, remove, amend, clarify, reframe, or withdraw any factual allegation, legal theory, claim, cause of action, or count, whether stated herein or omitted, and also I further reserve the right to add and remove parties stated herein or omitted, in accordance with applicable law and procedural rules.

I expressly reserve the right to take any and all reasonable precautionary, investigatory, preservational, and pre-suit measures deemed necessary or appropriate prior to the initiation of any formal civil action, including, but not limited to, deliberate disclosure for the matter of public record (please read "Supplement Notice Regarding Public Disclosure"), pursuing authorized pre-suit discovery or depositions, preserving and securing evidence, verifying records and attribution, consulting with or retaining legal counsel, experts, or advisors, making disclosures or reports to appropriate oversight bodies, and taking steps necessary to protect my safety, legal rights, evidence, identity, livelihood, and ability to seek redress.

Nothing in this NOTICE OF INTENT TO SUE shall be construed as an obligation to proceed on any particular timeline or in any particular forum. The timing, scope, and manner of any formal filing shall remain within my sole discretion, subject to applicable law. Any delay in filing shall not be interpreted as acquiescence, waiver, laches, or abandonment of claims, but rather as the exercise of reasonable diligence, caution, and evidence preservation under the circumstances.

Nothing in this NOTICE OF INTENT TO SUE shall be construed as a waiver, limitation, admission, election of remedies, or concession of any kind. All rights, claims, causes of action, and remedies, whether legal, equitable, statutory, administrative, or otherwise, and whether presently known or later discovered, are expressly and unequivocally reserved.

Ramon Ontiveros is hereby advised that the conduct described herein has been documented through lawful controlled observations and source-narrowing methodologies designed to identify the origin, pathways, mechanisms, and participants involved in unauthorized disclosures, surveillance, impersonation, reporting abuse, censorship, and retaliatory interference directed at me (please read: "Supporting Notice Regarding Documentation Methods and Controlled Observations").

Any violation occurring after receipt or publication of this NOTICE OF INTENT TO SUE shall be treated as willful, aggravating, and undertaken with full notice, and shall be preserved as evidence in support of injunctive relief, enhanced or exemplary damages, sanctions, fee shifting, and referral to appropriate regulatory, administrative, or investigative authorities, with proof established through direct, circumstantial, technical, and pattern-based evidence.

Sincerely

Samuel Martínez Roque, pro se

SUPPLEMENTAL NOTICES REGARDING

I. ADDRESS CONFIDENTIALITY AND VICTIM PRIVACY

For safety and privacy reasons, I have redacted my residential address from this NOTICE OF INTENT TO SUE. This redaction is intentional and necessary. Although I am aware that Ramon Ontiveros has previously obtained my residential address through impersonation of a friend through social media, and used it to intimidate me through abuse of legal process in August 2025, I decline to affirmatively disclose my address directly to him except where expressly required by law.

I am a survivor of severe human trafficking, labor exploitation, wage theft, deprivation of basic needs, and sex trafficking, and I have experienced ongoing retaliation, intimidation, harassment, and threats by Ramon Ontiveros, both directly and through anonymous or impersonated accounts. For safety reasons, I treat such activity as part of a continuing pattern of retaliation and coercive control.

This redaction is made pursuant to, and supported by, the following authorities, among others:

- 18 U.S.C. § 1595(d) - Protection against disclosure of victim-identifying information in trafficking-related matters.
- 18 U.S.C. § 3771(a)(1) and (8) (Crime Victims' Rights Act) - Right to reasonable protection from the accused and to dignity and privacy.
- Texas Code of Criminal Procedure, Article 56A - Crime Victims' Rights, including privacy and protection from retaliation.
- Texas Address Confidentiality Program, Texas Code of Criminal Procedure Articles 58.051-58.064 - Providing survivors of trafficking the right to request nondisclosure of their address.

I have previously invoked address confidentiality protections in a few legal documents and court-related filings, and such invocations have been accepted. Accordingly, I continue to rely on these protections to prevent further retaliation or harm. For my safety, I respectfully request that any personal identifying information contained in this document be treated as confidential to the extent permitted by law.

II. DOCUMENTATION METHODS AND CONTROL OBSERVATIONS

The following is disclosed solely to prevent mischaracterization.

Beginning in early 2024, I lawfully employed documentation and controlled observation methods to identify the source and patterns of unauthorized disclosures, retaliation, harassment, impersonation, and defamation directed at me. These methods involved isolating specific variables and communication channels to determine whether, how, and by whom information was reused, amplified, or weaponized. The purpose was evidentiary documentation of conduct, not solicitation, inducement, or consent to engagement.

Certain signaling elements were deliberately disclosed to specific individuals for source-narrowing purposes. Any subsequent adoption, repetition, escalation, or stylistic mimicry of those elements rendered the conduct observable, traceable, and reproducible. From that point forward, responses became stimulus-linked, predictable, logged, timestamped, and comparable across platforms. I did not request, authorize, or encourage any such conduct. Any use of these methods by Ramon Ontiveros occurred independently and constitutes further retaliatory and coercive behavior.

The results of these controlled observations include repetition and escalation of conduct, stylistic mimicry, attribution of creative or professional credits without authorization, coordinated use of online platforms to redirect associations or messages, associations to Ramon Ontiveros personal likings and identificatory, which validates his authorship since he would reference what he likes and knows.

These observations can be found on most interactions started by Ramon Ontiveros in the following but not limited to any social media, networking, or professional

platforms, including but not limited to Facebook, Instagram, Threads, LinkedIn, X/Twitter, TikTok, Reddit, and similar services, any dating, hookup, or location-based applications or services, including but not limited to Grindr, Sniffies, any open-source, creative, archival, cataloging, indexing, or attribution platforms, including but not limited to services used to index, attribute, distribute, or reference creative works, authorship, credits, metadata, or professional profiles, including platforms such as IMDb, or comparable services used for creative indexing or professional attribution, and any form of telecommunications or messaging, including but not limited to unknown, masked, spoofed, or VoIP phone numbers, SMS, MMS, encrypted messaging services, voice, video, or data-based communications, or any system that enables the transmission of messages, signals, content, or communications, whether directly or indirectly. The data supporting these findings has been preserved.

Any attempt to reframe retaliatory, harassing, or coercive conduct as “therapy,” “imagery rescripting,” “assistance,” or similar concepts is expressly rejected. Such conduct was neither requested nor consented to and constitutes impersonation and interference, not care or treatment.

Ramon Ontiveros is hereby placed on notice that his conduct has been and continues to be documented through lawful controlled observations and source-narrowing methodologies designed to identify attribution, pathways, and responsibility. Any further contact, replication, escalation, or interference following receipt of this NOTICE OF INTENT TO SUE will be treated as willful, aggravating, and preserved for use as evidence in support of civil remedies, injunctive relief, and appropriate referrals.

III. REDACTION OF ALLEGATION LIST

The detailed list of specific allegations, incidents, dates, communications, and supporting evidence referenced herein has been temporarily redacted from this NOTICE OF INTENT TO SUE due to Ramon Ontiveros' failure to supply attorney's contact details requested previously under the premise of his repeated assertions that he have “never received” prior communications regarding these matters, particularly in light of his repeated threats to notify his lawyers and initiate legal action against me.

In the previous “Formal Request for Ramon Ontiveros’ Lawyers’ Contact Information” I stated that the failure to provide this information will constitute grounds for treating all prior threats invoking lawyers (plural) as attempt of intimidation in a manner that reasonably appears designed to interfere with my lawful right to seek law enforcement assistance, legal remedies, and public protection, conduct consistent with trafficking and exploitation.

Purpose of Redaction of Allegation List

This redaction is deliberately, intentional and made in good faith due to documented and credible attempts at intimidation, retaliation, and misuse of legal threats, and to further support my claims regarding a broader pattern of intimidation, interference, obstruction of justice, and misrepresentation conduct, including but not limited to incidents occurring in August 2024, January 2025, August 2025, and December 2025 through January 2026, by Ramon Ontiveros because he never had such lawyers, as well as the use or threat of use of my immigration status as leverage, including threats of deportation, to silence, coerce, or deter reporting, not necessarily included on the periods just mentioned.

The redaction of this list does not waive, limit, or diminish any claim, allegation, or remedy, nor does it imply a lack of evidence. To the contrary, the evidence is preserved and documented. The deliberate and intentional redaction of this list has been done with the intent that this document serves as evidence of my attempts to resolve this situation amicably through legal proceedings, and Ramon Ontiveros sustained, continued, and deliberately disengagement, while still attempting to communicate through covert mechanisms, conduct that is well documented.

Disclosure and Due Process Clarification

If Ramon Ontiveros contends that this NOTICE OF INTENT TO SUE violates due process or any legal right while his condition of being prosecuted through legal proceedings, he is free and fully entitled to raise such claims through appropriate judicial proceedings as I am also entitled to reserve the right for any disclosure before initiating formal legal proceedings.

The full, unredacted list of allegations will be disclosed upon formal request by verified legal counsel representing Ramon Ontiveros, subject to confirmation of representation and in a manner consistent with legal and safety considerations.

I reserve the right to respond up to five (5) business days following receipt of a formal disclosure request from Ramon Ontiveros' verified legal counsel. No obligation to disclose arises absent confirmation of lawful representation. Any delay prior to counsel appearance is attributable solely to the requesting party.

I further reserve the right to extend this period where verification, safety, or evidentiary concerns require additional time.

IV. MATTER OF PUBLIC RECORD

I am speaking publicly because private silence has repeatedly resulted in intimidation, retaliation, and credible threats to my safety. Public documentation is now a necessary measure for protection, transparency, and accountability.

Since my separation from my employment at Floor Ko LLC, under Ramon Ontiveros' control, I have received multiple threats, acts of intimidation, and death threats, both directly and through individuals or accounts claiming to act on his behalf. These incidents do not exist in isolation; they form a discernible pattern of escalation, retaliation, and coercive behavior that has continued despite my efforts to resolve matters privately and through appropriate legal and administrative channels.

My decision to speak publicly is not retaliatory, not defamatory, and not intended to harass. It is a response to repeated intimidation; abuse of legal language and legal process; immigration-status-based threats; attempts to silence, discredit, or isolate me through fear; and explicit death threats, including the invocation of the participation of the Juárez Drug Cartel in conspiring to harm and murder me. Public speech is now the least harmful and most protective option available to me.

Purpose of Public Disclosure

I am making these statements publicly for the following reasons:

1. For my personal safety in order to reduce the risk that further harm occurs in private, undocumented contexts.
2. For transparency in order to establish a verifiable public timeline of events.
3. For deterrence in order to discourage further intimidation by making patterns visible.
4. For accountability in order to preserve the integrity of future legal, journalistic, or advocacy review.
5. For protection in order to assert my right to speak about my lived experience as a survivor of human trafficking, labor exploitation, wage theft, deprivation of basic needs, and related coercive conduct.

This disclosure is made in good faith and based on my direct experiences, contemporaneous documentation, and preserved records. The conduct I am documenting demonstrates repetition over time, escalation following attempts to disengage or seek help, mimicry and impersonation, use of anonymous or misleading identities, and attempts to frame retaliation as lawful, therapeutic, or justified conduct. These behaviors are consistent, traceable, and documented, and they have been logged with dates, timestamps, and preserved records. The pattern itself, not any single incident, is what necessitates public disclosure. I note that threats, intimidation, and harassment do not lose their significance simply because they are indirect, anonymous, or framed as legal posturing.

I affirm that I have the rights to freedom of speech, to speak publicly about my experiences, to document threats, intimidation, and retaliation, to protect myself through transparency, to pursue legal remedies separately and independently from public speech. Nothing in this public statement constitutes a waiver of legal rights, a final statement of claims, an admission, or an invitation to further contact, intimidation, or retaliation. Any attempt to use this public speech as justification for further threats, harassment, or legal intimidation will be treated as additional evidence of escalation.

For safety reasons and to prevent further misuse of my personal information through lawful or unlawful channels, I intentionally limit the disclosure of personally identifying information, including my residential address and other sensitive details. This limitation is consistent with survivor-protection principles and is undertaken for self-preservation, not concealment. I note that Ramon Ontiveros has previously obtained or attempted to obtain such information through impersonation and misrepresentation on social media and related platforms; however, I continue to restrict disclosure to prevent further access, escalation, or leverage arising from the misuse of my personal data.

V. LEGAL REPRESENTATION

This NOTICE OF INTENT TO SUE is submitted pro se. Nothing herein shall be construed as a waiver of my right to retain legal counsel at any time. I expressly reserve the right to obtain representation by licensed legal counsel at any stage of this matter, including but not limited to pre-suit negotiations, formal filing, discovery, or trial, should I determine that representation is necessary or appropriate.
